

POL. ADV. PAID FOR BY GREG PARKER FOR COUNTY COMMISSIONER

PRESS RELEASE

Citizens Budget Committee Report.

Conroe, TX, July 24, 2017: Our community is the fastest growing in the nation with a population increase of 7.8% and a growth rate 11 times higher than the national average. Yet our County spending has grown from \$89 million to \$377 million annual, or a 424% increase, since 2000. I applaud all the members of our Citizens Budget Committee for their hard work. I have reviewed the Citizens Budget Committee Report and believe it to be a wonderful foundational start to reducing spending while maintaining county governments core function. Therefore, I call upon Commissioner Riley to lead in pushing for some of the identified and targeted spending reductions outlined in the Budget Committee's report, for the good of the residents of precinct two and of Montgomery County. Because we need real change!
